TAUC

GET TO KNOW US

TAUC is the nation's premier trade association for the union construction and maintenance industry and elevates its membership's collective position in the marketplace.

TAUC provides a forum to demonstrate the value of union construction and maintenance and its impact on the well being of our nation.

TAUC stands at the intersection of safety, strategy and execution where contractors, clients and crafts work towards stronger and more viable construction and maintenance solutions.

Expect More

TAUC advances our industry through the cultivation of innovative leadership strategies and advocates for safer and more productive projects.

Do More

TAUC events offer a venue for open and honest discussion with your contemporaries and presents the latest information on trends, problem-solving strategies and perspectives on the industries we serve.

Know More

TAUC supports your professional development through educational events and speakers, providing the necessary knowledge, resources and relationships to prosper in today's evolving marketplace.

Grow More

TAUC is a catalyst for expanding your organization's exposure in the industry as well as your professional development.

Say More

TAUC tracks and supports legislation that protects and advances the interests paramount to the success of the union construction and maintenance industry.

The **Vision & Mission** of The Association of Union Constructors stands for the **Future** of **Construction and Maintenance**

About TAUC

The Voice for Union Construction and Maintenance

Located across the Potomac River from Washington, D.C.'s corridors of power, The Association of Union Constructors (TAUC) occupies a unique space in the nation's capital as the premier national trade association for the union construction and maintenance industry.

TAUC is made up of more than 2,000 contractor companies that utilize union labor for their projects, as well as local contractor associations and vendors in the industrial maintenance and construction fields.

Our Mission

TAUC's mission is to act as an advocate for union contractors and enhance cooperation between the three entities involved in the successful completion of construction and maintenance projects: the union, the contractor and the owner-client, the company for which the work is being completed. By encouraging this "tripartite dialogue," many potential issues and delays are eliminated before work even begins.

We strive to demonstrate that union construction is the best option because it is safer and more productive, and also provides a higher-quality and cost-competitive product. We aim to enhance labor-management cooperation, workplace safety and health and collaboration among construction users with the greater goal of making union contractors more competitive in the marketplace.

Adaptation in the 21st Century

Founded in 1969 under the auspices of the National Erectors Association, the organization originally served as the voice for union steel erector companies. Over the years, however, the need became apparent for a single national organization to represent all industrial maintenance and construction companies that realize the value of the union workforce, and soon other non-steel erection contractors would join up as well. In recognition of this newfound diversity, in 2007 the association changed its name to The Association of Union Constructors.

LEADERSHIP CONFERENCE

Attendees

“Sponsoring the Leadership Conference is a high ROI tool to communicate our company’s brand and skillset to the decision makers who attend. Nowhere else can we interface with owners, labor unions and fellow union contractors in an intimate and proactive environment.”

— Chuck Binkowski, Executive Vice President, Chief Operating Officer,
Barton Malow Company
